OSCAR ALEJANDRO GOMEZ QUINTERO

+971 (0)54 304 2253 | oscar.gomez@nyu.edu | oscargomezq.github.io

- EDUCATION

B.S. Mathematics, B.S. Computer Science

New York University Abu Dhabi, Abu Dhabi, UAE

NYU Courant Institute of Mathematical Sciences, New York, USA

GPA: 3.89 / 4.00 Aug 2016 – May 2020

Feb 2019 - May 2019

Relevant Coursework: Machine Learning, Algorithmic Foundations of Data Science, Visual Analytics, Probability and Statistics, Advanced Probability, Mathematical Statistics, Software Engineering, Computational Social Science

— SKILLS

Programming: Python, R, C, C++, JavaScript, HTML, CSS, Git

Data Science / Visualization: scikit-learn, Keras, SQL, Spark, D3.js, Bokeh, Plotly, Tableau, LaTeX

Languages: Spanish (Native), English (Fluent), French (Basic)

— WORK EXPERIENCE

Data Science Intern

June 2019 – Aug 2019

nexquare, Dubai, UAE

- Enhanced machine learning models, used to predict student performance and employability, that process 800 million data points across more than 220 schools in over 10 countries.
- Developed an interpretable machine learning module that provides students, educators, regulators, and ministers explanations for the models' decisions and incorporated it within the company's advanced analytics platform.
- Implemented model agnostic interpretability algorithms (local feature importance and counterfactual explanations).

— RESEARCH PROJECTS

Capstone Project in Mathematics

Sept 2019 - Present

Mathematics Department at NYU Abu Dhabi, Abu Dhabi, UAE

- Researched applications of the Random Cluster Model for geometric fitting and hypergraph clustering.
- Studied methods for simulating Ising, Potts, and Random Cluster models such as Glauber dynamics and the Swendsen-Wang algorithm.
- Analyzed, through the theory of Markov chains, the conditions for convergence to a stable distribution for an algorithm using the random cluster model for robust geometric fitting.

Machine Learning Explainability and Visualization

June 2018 – Aug 2018

Visualization and Data Analytics Lab at NYU, New York, USA

- Developed machine learning models to predict customer credit risk from a FICO line of credit dataset.
- Generated instance explanations by implementing algorithms to detect the most important features and the minimal set of changes needed to alter the model's output.
- Developed global explanations in the form of interactive visualizations to explore the individual explanations through a hierarchical organization that groups similar instances.
- Expanded the project by developing *ViCE*, a tool that generates and provides an interactive visual interface for counterfactual explanations [1].

Machine Learning for Musical Analysis

Feb 2017 – May 2018

Music and Sound Cultures Group at NYU Abu Dhabi, Abu Dhabi, UAE

- Developed and implemented the computational analysis of two non-western music collections for the project "Computationally-Engaged Approaches to Rhythm and Musical Heritage" [3].
- Performed musical feature extraction and conducted an exploratory analysis of the data by using dimensionality reduction with deep autoencoders.
- Developed an interactive visualization depicting the musical similarity of the data by using k-means clustering and t-SNE embedding, where users can listen to the clips and explore artists clustered together [2].

- LEADERSHIP

President, NYUAD Mathematics Club

New York University Abu Dhabi, Abu Dhabi, UAE

Jan 2017 – Dec 2018 Sept 2019 – Present

- Programmed activities for high school students and guest speaker talks for university students.
- Prepared the syllabus and led the weekly training sessions in preparation for international competitions.
- Coordinated and supervised NYUAD's team participation in the International Mathematics Competition of 2018 and the Al-Khwarizmi International Mathematical Competition of 2018.

— AWARDS

Second Place, FICO Explainable Machine Learning Challenge	Jan 2019
Honorable Mention, Al-Khwarizmi International Mathematical Competition	Oct 2018
Honorable Mention, International Mathematical Olympiad (IMO)	July 2016
Best Entrance Exam Score (Nationally), Universidad Nacional de Colombia	Apr 2016
Silver / Bronze Medals, Centroamerican / Iberoamerican Mathematical Olympiads	Sept / June 2014
